"How Your New Ad Tracker Will Save You Massive Amounts Of Profit & Time, Increase Sales & Ad Responses, And Grow Your Business For You Exponentially!" From: FBM Friday 10:14 AM Dear friend, With your permission, I'd like you to answer a question for me. You see, there is one question that plagues just about every 'net marketer doing business online. Well, let me get straight to the point. Answer this; What does it take to really succeed with an online business? Do you know the answer? If I told you that I have the answer, and that I have solid proof to back it up, would you believe me? In just a minute, I will be unveiling the answer and how you can solve the problem! Instantly and easily, creating surges of easy cash, cold hard cash for yourself, your family and whatever else you may need. When Millions Were Actually THROWN IN THE GUTTER! Let me tell you how 4 Internet marketers, just like you- lost millions of dollars by not employing the correct answer to the question above. These 4 marketers did "almost" every thing right. They created and sold their own products, ran their own affiliate programs, bought courses and e-books to educate themselves with new profit strategies, worked hard at generating traffic, just like you do- right now. But one element of their marketing plan was missing, and as it turns out, this one element is the breakthrough that literally skyrocketed their income as soon as they employed it. So what is the answer to that question? It isn't about writing ad copy, getting traffic, creating products, or building a list, the key- the one specific money-making key to Internet marketing is the ability

to measure and effectively test all avenues of your online cashflow without spending much time. Let the truth be known; Marketing is a numbers game! It's been said before. And it's the truth. Plain and simple. If you have the ability to test and measure the results quickly and easily, then you and anybody can become a marketing genius! And that is the real key to raking in trash bags of cash! What you need to do this is....

- \* Something that is automated, easy to use, and virtually hands-free!
- \* Something that lets you track, measure, and analyze the "numbers" of your marketing campaigns!
- \* Something that will tell you where your business is losing money, and what to improve upon!
