

# Airplane Pilot Library With 2011 Far/aim Regulations

[DOWNLOAD HERE](#)

Finally, everything you need for Pilot reference and study in one place! Up to date Free subscription for 1 year Documents are fully indexed Save time and \$\$\$ Airplane Pilot FAA Library & Study Kit Use this library for reference, to pass written tests, to prepare for oral and practical tests, to plan flights, to keep current and to pass bi-annual reviews. Covers Sport, Recreation and Private Certifications. Contains almost 100 electronic handbooks, guides, regulations, bulletins, templates and tools. Numerous companies (Jeppesen, King, ASA, Glems, etc) make a living supplying this information in slightly different formats. The Jeppesen Kit costs over \$425: Private Pilot Manual (List price: \$73.95) Private Pilot Maneuvers Manual (List price: \$19.49) Private Pilot Stage Exam Booklet (List price: \$7.49) Private Pilot Practical Test Standards (List price: \$6.49) Private Pilot Practical Test Study Guide(List price: \$22.95) Private Pilot Airmen Knowledge Study Guide(List price: \$18.49) GFD Presolo Written Exam (List price: \$4.49) Private Pilot Airplane Exam Pack (List price: \$22.49) FAR/AIM Manual (paper) (List price: \$19.95)

Pilot Logbook (List price: \$13.49) TechStar Electronic Flight Computer (List price: \$69.95) Private FliteSchool (test preparation software) (List price: \$159.95) Aviation Weather Services (Paperback) (List price: \$16.95) Fact is you dont need to buy any of these multi hundred dollar guides or even to pay for a ground school. Advisory Circular (AC) No: 61-65D states: COMPLETION OF GROUND TRAINING OR A HOME STUDY CURRICULUM. Ground training courses to prepare for the aeronautical knowledge test may be offered by pilot schools, colleges, aviation organizations, and individual flight or ground instructors Home study curriculums individually developed by students should be compiled from material described in the applicable FAA knowledge test guide. This kit puts official FAA materials in one categorized electronic library for your success. Many are the same documents sold by the recognized companies. In all cases, the material is the final authority in answering test and regulatory questions and helping you fly safely. I have also included many time and money saving tools available in the library and reference to online tools to assist with planning, weather, research and training. All are free with this kit. Save your money for flight time.. The material in this kit is compiled from publicly available sources and research and documents created during my pilot training. Kit also gives you the tools to make all this information portable so you can take it with you on your hand held to study or for reference. I paid another company over \$15 just to get the regulations on my hand held. After a cumbersome process of loading their software and data libraries, I found their files were so large I could only fit one section of the FAR on my memory. After much research, creating my own website and removing some of the larger pictures, I got this information much smaller. Now, this is all I carry with me even to flight reviews. Yes, Get access to free, unlimited, on-line testing Yes, Contains the latest edition of all Handbooks Yes, Contains the most current FAR/AIM Guaranteed Success If for any reason, you are unsatisfied, just tell us within 2 weeks and we'll offer a full refund. The material in this library is compiled from publicly available sources and research and documents created during my pilot training. It is far more than a directory of documents without any explanations. I've put many, many hours of research into tracking, creating, cataloging and keeping current the material and tools and making them accessable. Using it, I got a 93 on my written test and passed license check rides on the first try. I continue to reference the library to stay current and plan flights. Easy to Use Everything is laid out in a logical order with an explanation of why each document is important for certification and continued piloting success. I have tried to focus on what is most meaningful and explain why. All documents are in the library in the original FAA format. All are indexed and

searchable for key terms. The detail, explanations and graphics are outstanding. Up to Date Each document is the current version as of the latest releases by the FAA. Other listing I've seen with this type of content are way out of date - one that I looked at has not been updated in over 3 years. You'll also be subscribed to updates of this information by download when it changes for 1 year. Learning & Study Materials Student Pilot Guide The Airplane Flying Handbook Pilot's Handbook of Aeronautical Knowledge Instrument Flying Handbook Medical Handbook for Pilots Advisory Circular (AC) 67-2 Aircraft Weight and Balance Handbook Aviation Weather Services Aviation Weather For Pilots and Flight Operations Personnel Hazardous Mountain Winds Aviation Instructor's Handbook Plane Sense FAA Accident Prevention Bulletins FAA-Pamphlets (18 bulletins) Testing Resources Private Pilot Practical Test Standards for Airplane Recreational Pilot Practical Test Standards for Airplane and Rotorcraft Pre-Solo Written Test Certification Pilots and Flight and Ground Course Knowledge Test Guide Reference Materials and Subject Matter Knowledge Codes for Airman Knowledge Testing Airman Knowledge Test Question Bank Private Pilot Question Bank and Answers Computer Test Supplement Test Site List Average Test Scores Regulations Federal Aviation Regulations FAR/SFAR FAR / Aviation CFR Aeronautical Information Manual (AIM) AIM Airplane Pilot Library with 2010 FAR/AIM Regulations, Knowledge & Flying Handbook, Instrument Manual + more Tools Cessna 172 Checklists From Information Manuals in Kit Flight Planning Templates Templates to plan you flight Free Practice Computer Testing Access to Practice Test Site Weather How to get current weather on-line Airport Directory Information and Diagrams Where to get current airport directory info online Flight Planning On-line tools for planning AOPA Get a free log book for your hand held E6B calculator A free on-line calculator and an inexpensive calculator for your hand held Airworthiness Directives Where to get current directives online Getting Info to your Handheld (Palm or PocketPC) NOTAMS Accident Databases and Synopses See more at [clearblueyonder.com](http://clearblueyonder.com)
