Dear Friend, If you are ready to leapfrog your competition on eBay or if you are just getting started building your eBay business, this is your chance to finally get the inside story of what it really takes to become an elite eBay Power Seller and achieve financial success and independence. Finally you can get the never before shared stories of 25 of the most successful people on eBay - people who make up less than 1 of the entire eBay community - Power Sellers. You have probably seen many eBooks on eBay and success selling and you are probably wondering what makes Secrets of the eBay Power Sellers different than all these other books. You may have even read some of these books and for some reason or other, they may have never really translated into an action plan you could follow. And you probably wondered why? The answer is simple! I have reviewed many of these eBooks and many others simply offer a list of techniques, hints and ideas and nice theories that sound real good on paper but somehow never translate into your personal success. That is because they are hard to apply when you dont really understand what it takes to achieve success on eBay in the first place. Once you understand what it really takes to achieve eBay success, these eBooks can provide a wealth of information but not before. Secrets of the eBay
Power Sellers is the solution to this success gap. It offers the real story of 25 very successful eBay sellers. Utilizing an interview format, each interview takes you from their humble beginnings on eBay to their present day success. For the first time ever, you will have 25 role models in a wide variety of eBay sales areas to use as real models for you to build your own success story. Why reinvent the wheel when you have the opportunity to Study 25 Super Success Models. By studying these models, you will learn:

- What it really takes to turn eBay into a massive revenue generator that can replace your full-time job income.
- What tools are used to automate your eBay business so you can concentrate most of your efforts on what is really important - selling your product.
- How selection of a product/product mix is critical to your success - but how eBay caters to such a wide variety of wants that the types of products you can sell is almost unlimited.
- How it is critical to choose a product mix that you really enjoy working with so that you stick with your eBay business long enough to be successful.
- How there are opportunities to expand your eBay business into other areas and why it may not be profitable to do so.
- Specific post to close ratios (i.e. how many auctions listed Vs how many sold) and how one seller makes a fortune even though his closing ratio is only 5.
- Why building up and working your customer list results in greatly increased profits at highly reduced selling costs.
- What are the biggest challenges to managing your successful eBay business and how to overcome them.
- And much more

Each of the 25 interviews shares compelling and fascinating details of a true eBay success story. A study of what each of these eBay sellers is teaching you and a study of their auction listings and feedback will give you the vital details you need to become eBay's next success story. Imagine for a moment being able to sit down and have 25 successful eBay sellers share their personal path to successfully running a business on eBay and answering detailed questions about how they run their business to achieve that success. And these are not big companies that are being interviewed. Many of the interviews are about one person and mom and pop businesses. Only a small number have any outside employees. If so many people can start and grow a successful eBay business without the backing of a bug-bucks company, you can too! Especially with 25 success roadmaps to follow. It is often quoted that the best way to achieve success is to find people who are successful at doing what you want to do and then get these people to be your mentors. And now you have such a resource. These 25 interviews cover a huge variety of interest areas from antiques to collectibles to packing supplies to computer parts, etc. The list is quite large.
