And To Kick-Start Your Money-Making Mini Sites In A FLASH! Whether you like it or not, people do just a book by its cover. And people judge a website by its design. I know that when you start a new website project, you want to launch with a good-looking website. You want to be able to win the trust of your website visitors with good, professional design. And I know the problem when it comes to website design. * You can get any of those free website templates available on the Internet. But the truth is, they aren't any good. You and I know that. * And you can buy a website template from galleries, but they would cost you a bomb. Each website template is no less than \$50. * And let's not even get started with a custom design from a professional web designer. I don't think you can get a custom design for lesser than \$100. Some even charge a minimum of \$500 per design. So the last few weeks, my friends and I put together a collection of 20 mini site template for you to consider. With these templates, you can be sure that... * Gain the trust of your web visitors with professionally-designed mini site templates * Stay ahead of the trend with Web2.0 style elements * Get free traffic with templates

optimized for the search engines * Choose your own style with sales letter and side menu template variation If I were to sell these template individually, I would charge no less than \$50 each. But because I want to solve the problems that I listed above with getting a good design for your website, I decidede to lower the price. Now, you can get ALL the 20 mini site template design for only \$20. All mini-site templates contain: * XSitePro template version * HTML version complete with web graphics * Photoshop PSD file * Blank header graphic file in GIF or JPG Unlike most mini site templates merchants where they limit your usage to one website, I don't have any restrictions like that.
