Regards, Thomas Salvador. P.S. `.diz?` `.diz` files are just regular text files, you can open in your favorite text editor. The extension `.diz` is used that you can put the whole product as-is in a blog tool. This way you do not need to worry, that these lists/descriptions (=not-martial Arts-content) get published on your

site. The blogging tool should only process .txt-files. Hence .txt is used only for publishable martial Arts content, but not for internal information. It is just used to make your life easier.
